Taste of Maryland

Harmony Hall

Bowie Town Center

Cheverly Day

Jammin Java

E.J's Landing

# COSINE BAND

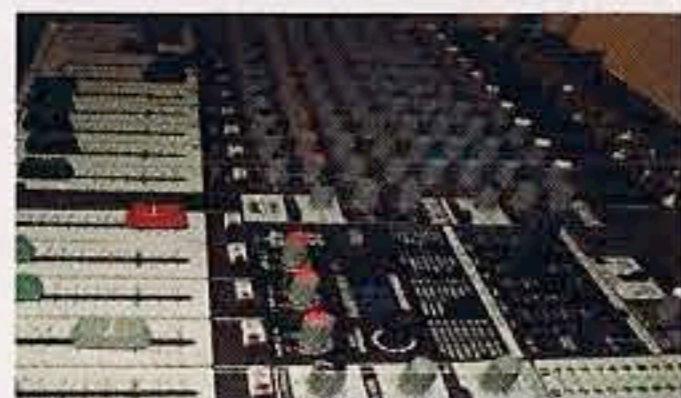

Cosine have that refreshing mixture of smooth latin rhythms, and percussive bass with inspiring instrumental guitar melodies and hot guitar licks.

With the lack of real bands in our musical society it's refreshing to hear Cosine and Elements of Cosine. They are a multi-talented group with their own style. I've had the pleasure of working with the band over the last 10 years and I think they have an incredible talent whose time has come to be recognized on a national level." sound.

# SOUND CHECK

What good is music without the right sound? Our Technicians are trained and experienced. We can provide excellent sound support for your venue. Whether a small or big event we are prepared. Contact Mark for your special needs. Our rates are fair and reasonable.

# MARK BROOKS

Mark is the Production Coordinator for both Cosine and Elements of Cosine. He also composed and arranged songs for Cosine and Elements Debut CD's. Inspiration for his guitar stylings and technique can be attributed such greats as Carlos Santana, Jeff Beck, Joe Satriani, Joshua Redmond, Wayman Tisdale, Earl Klugh, Miles Davis, Wes Montgomery, and Tony Maiden.

His ability to switch techniques makes him perfect for a session player for studio or stage. If you need someone to provide that special touch to your recording or live performance he is your man.

If you would like to hear some of his signature "licks" check out the song People Let's Communicate on Coque Records, "Soft and Easy" one of the opening songs used to introduce "Quiet Storm" for WHUR 96.3 a local FM radio station in Washington DC.

He also served as a sideman for "Golden Touch" a project of the late Eddie Kendricks of the Temptations. One of his songs "Looking Glass" placed semi-finalist ranking in Songwriters Association of Washington (SAW). He later went on to write and produce with his brother Edward Brooks for their debut CD Cosine Special Edition, and most recently, Elements of Cosine Light of the Sun. Both CD's are available for purchase online through Imelle.com or by contacting mlbrooks928@gmail.com for details.

# ELEMENTS OF COSINE

Elements of Cosine represent the best of today's music. Their smooth artistry and lilted melodies, set them apart from the rest. They have feeling and it comes through in their music. Seeing them is an experience you don't want to miss.

From L-R: William Dunlap (Keys), Kwab Ofori-Ansah (Drums), Mark Brooks (Guitar), Eva Njoku (vocals), and Wyndel Ficklin (Bass).

Elements of Cosine is a slightly different version of Cosine. They are a separate group comprised of Cosine members and some of the best musicians in the Washington Area. They are great for clubs and venues with limited space, and are looking for a smaller act that can really deliver the best in urban music.

We are willing to negotiate. So, don't hesitate to contact us, and thrill your guest with another fine group from Imelle.com and 5 Finger Discount Records and Production.

For more information, questions or comments, please email us at [ElementsofCosine@live.com](mailto:ElementsofCosine@live.com)

# CONTACT US

We provide a variety of music ranging from R&B, Smooth Jazz, Progressive Funk, Rock and Latin Styles. Our music is perfect for any occasion, and any age group. Our band have something for everyone to enjoy. Our business is registered with the Maryland National Park and Planning Commission (M-NCPPC) purchasing system so there is no need to complete a vendor questionnaire. We provide great professional service and we are here to entertain.

A lot of the local clubs and venues were not equiped to accommodate a full band either financially or physically and as a result an evolution occurred called "Elements". Imelle.com can provide for you a wide variety of options based on your specific needs. Our musicians are talented, professional, and surprisingly good.
